Special Lecture
on
Software Development: From Instruction to Interaction

Dr. Subhajit Datta
IBM Research, Bangalore

Abstract:

Conventionally, software development has been viewed from an instructional perspective. Based on recent developments, the instructional view can be complemented by an interactional view. Interactions in software developments occur at several levels. In this presentation, we explore some such interactions and highlight their importance in the quest for better software.

A large, semi-transparent watermark of the DA-IICT logo is centered on the page. It consists of the stylized 'A' shape and the text 'DA-IICT' in red below it.
